La Princesse

Une Princesse est tourmentée par les visions d'une Reine corrompue depuis toute petite sans ne savoir pourquoi.

Avec l'aide d'un sorcier considéré par son village comme funeste, elle essaye de percer ce mystère.

Intelligente et curieuse, la princesse est destinée à régner sur un village en plein essor.

Mais pour le moment ce n'est pas son problème et préfère s'aventurer en forêt.

Considéré comme funeste par le village, le Sorcier vit une vie d'ermite dans la forêt.

Solitaire et maladroit, il est plus performant que les magiciens de la bourgade quand il s'agit de sort.
